S2000 Start Button

Start Button

[1] [2] [3] [4] [5]

Pin #1 Unused
Pin #2 Unused
Pin #3 Unused
Pin #4 Mastercell Input
Pin #5 Ground (or switched Ground)

- Pins are shown from the back of the switch with the writing on the button facing up.

- Polarity to the wires is important. The switch will not work if the input and the ground wires are reversed.

- Can be used to control the starter or with the ISIS One-Button Start. See 3-Cell Kit manual for wire colors.
